

Universidad
Andrés Bello®

UNIVERSIDAD ANDRÉS BELLO

JULY 2025

UNIVERSIDAD ANDRÉS BELLO

It is a private university founded in Santiago in 1988. Its name is inspired by Andrés Bello, humanist, politician and jurist. One of the most influential intellectuals of the nineteenth century.

UNAB's sponsoring entity is the Fundación Educación y Cultura, a Chilean non-profit organization, which was established for the sole purpose of contributing to the development of Chile through the promotion and improvement of higher education.

Our Mission

We wish to offer an enriching educational experience tailored for a globalized world. Supported by critical thinking and the continuous generation of knowledge through research.

Our Institutional Vision

We wish to be recognized as one of the best universities in Chile.

We thrive through the sharing of knowledge. We strongly believe that global alliances will strengthen the depth and reach of our research and our opportunities to teach.

Our Values

The pursuit of the common good through the advancement of knowledge, the care for our community, the care for the environment and the cultivation of long-term relationships based on a thirst for learning.

ABOUT US

- We strive to provide a quality education for our students at both the undergraduate and graduate level. We award Bachelor, Master's, Doctorate, and professional degrees, including certifications and diplomas.
- We wish to give our students an educational experience that helps them prepare for a future where innovation, entrepreneurship, cultural diversity, critical thinking, and flexibility are necessary tools to thrive in a global world.
- We want to be part of the advancement of both applied and theoretical knowledge, through research in both academic and professional areas.

- We want to be of service to our communities through our research, therefore, it is of the outmost importance that the scientific rigor is followed.
- We believe that our work must have a positive impact in the communities that surround us.
- We believe collaborative work is paramount to learning, research and development.
- We believe that international standards and metrics are a way to maintain our effectiveness and efficiency.

OUR GUIDING PRINCIPLES:

Drive towards excellence.

We have a passion for doing things well, with a strong spirit of self-criticism, looking for continuous improvement.

Accountability.

We believe in being responsible for our own actions, understanding that the benefits of a good education should have an impact on society.

Student Centered.

Students are at the center of all our endeavors.

Honor.

We value honesty and trustworthiness. We expect an ethical behavior of all our members, as reflected on our honor code.

Diversity and Inclusion.

We welcome all. We are respectful and tolerant of all ideas and creeds.

POST UNIVERSITY:

Universidad Andrés Bello is the controller of Post University, a university founded in 1890 in Connecticut, United States.

With more than 17 thousand students and 45 undergraduate and graduate programs, Post University has been consecutively accredited for more than 50 years and has been a pioneer in the use of online training methodologies.

It is the first Chilean university to acquire a university in the United States, thereby internationalizing its educational model, which considers academic excellence, the generation of new knowledge, and the promotion of diversity and sustainability as its pillars.

OUTSTANDING COLLABORATIONS

Becker Friedman Institute Latinoamérica – University of Chicago:

The purpose of this collaboration agreement is to promote the exchange, production and dissemination of research focused on the most relevant economic policy issues for Latin America.

European Organization for Nuclear Research (CERN):

Through the scientific work developed by the Millennium Institute of Subatomic Physics at the High Energy Frontier, hosted by Universidad Andrés Bello, and formed by other four Chilean universities.

Arizona State University:

Strategic alliance focused on the development of undergraduate and graduate academic programs, in addition to the co-lecturing of international courses in various disciplinary areas. Research collaboration is incorporated into the alliance.

INCLUSION AS A MISSIONAL SEAL

Universidad
Andrés Bello
Conectar • Innovar • Liderar

STUDENTS JOB SKILLS DIPLOMA

JOB SKILLS DIPLOMA

Innovative program that trains young people with special educational needs for their insertion into the world of work.

150 students in the
three campuses

448 young people
have been
certified in the
program and are
part of the UNAB
Alumni Network

CONECTA INCLUSIVO

Employability platform where graduates of the Job Skills Diploma and other students with disabilities connect directly with employers and organizations, thus improving their visibility in the world of work and promoting their employability.

INCLUSIVE EDUCATION DIRECTORATE

Realiza procesos de acompañamiento de estudiantes con discapacidad durante su formación. Esta dirección es parte del Centro Integral de Acompañamiento y Desarrollo al Estudiante de la Vicerrectoría Académica.

THE INCLUSION OBSERVATORY

Its mission is to promote a culture that values human diversity and promotes an updated conception of it, which favors inclusion, quality of life, and participation in equality for people with disabilities. It carries out specialized training actions, also contributing to the public debate for the formulation of inclusive policies

TECHNOLOGY IN THE SERVICE OF EDUCATION
